AUBERGE

INSPIRED LUXURY

Calistoga Ranch, like every Auberge Resort, delivers a completely immersive experience. You'll enjoy the absolute essence of your destination, discover the healing power of seeking pleasure, and discover a staff committed to delivering every service and amenity with an unrivaled sense of passion. It's a unique sense of luxury and sophistication, refined, yet always relaxed. We are also committed to the concept of "responsible luxury," striving to make positive contributions to both the surrounding environment and communities wherever our resorts are located.

earth  
month  
SOLAGE

Hello Friends,

Springtime in Napa Valley showcases Mother Earth at her best. The promise of renewal is evident in the vines coming back to life and the abundance of wildflowers covering the hillsides. While all this is enough cause for celebration, we felt the need to honor our planet with an expanded Earth Day tribute at Solage.

Although there are many ways we embrace nature throughout the resort every day – by tapping into our geo-thermal spring for healing waters at the Bathhouse pools, sourcing culinary ingredients from local organic farms, and ensuring guest rooms and public spaces are furnished and maintained with sustainable materials – we are enhancing our focus on sustainability during [Earth Month at Solage](#).

At Solbar, Executive Chef Brandon Sharp will prepare [Mother Earth's Family Supper](#), on April 22, highlighting many of the organically-grown ingredients sourced for the Solage kitchen every day. The bar will also offer the [Terra Nostra](#) a hand-crafted cocktail available throughout the month that features products from local artisan distillers and farms. And throughout April, [Spa Solage](#) will be featuring two new organic treatments including, an antioxidant grape seed scrub and massage and an anti-aging facial.

In addition, Solage is supporting the Napa Valley Vine Trail, an extensive walking and biking path currently under construction, that will stretch from the Vallejo Ferry to our doorstep in Calistoga. We hope you'll join us by adding a donation to this eco-friendly endeavor to your Spa Solage, Solbar or Guest Studio check throughout the month of April, or by visiting the Vine Trail directly at [www.vinetrail.org](http://www.vinetrail.org).

We look forward to welcoming you back to Solage soon.
